**Importance:** High

Bryan,

I need your help.

How is Rule 220 Section 403.2 applicable to the source's installation of emergency generators G-4 and G-43? The source already included this equipment in the request for permit modification submitted on 03-Dec-2016. What are the elements of the violation at this point? What is the corrective action?

Isn't Rule 220 Subsection 301.3a more applicable here?
